

1001227 Air Cylinder, Airway

New Product Introduction

Description

The Airway rack will include a new air cylinder with the following part numbers:

- 1001227 Air Cylinder, Airway
- PB33353 Repair Kit (existing)

The same repair kit can be used on this cylinder as on previous cylinders.

Major Changes

This cylinder incorporates integrated orifices, as shown below. Therefore, orifices are not required to be added externally to this cylinder.

Backwards Compatibility

This cylinder is backwards compatible to standard Jamesway 2-column Z and X frame racks. The orifices currently installed on the existing cylinders will not be required.
